Federal Rule of Civil Procedure 45 (c), (d), (e), and (g) (Effective 12/1/13)**(c) Place of Compliance.**

(1) *For a Trial, Hearing, or Deposition.* A subpoena may command a person to attend a trial, hearing, or deposition only as follows:

- (A) within 100 miles of where the person resides, is employed, or regularly transacts business in person; or
- (B) within the state where the person resides, is employed, or regularly transacts business in person, if the person
 - (i) is a party or a party's officer; or
 - (ii) is commanded to attend a trial and would not incur substantial expense.

(2) *For Other Discovery.* A subpoena may command:

- (A) production of documents, electronically stored information, or tangible things at a place within 100 miles of where the person resides, is employed, or regularly transacts business in person; and
- (B) inspection of premises at the premises to be inspected.

(d) Protecting a Person Subject to a Subpoena; Enforcement.

(1) *Avoiding Undue Burden or Expense; Sanctions.* A party or attorney responsible for issuing and serving a subpoena must take reasonable steps to avoid imposing undue burden or expense on a person subject to the subpoena. The court for the district where compliance is required must enforce this duty and impose an appropriate sanction—which may include lost earnings and reasonable attorney's fees—on a party or attorney who fails to comply.

(2) *Command to Produce Materials or Permit Inspection.*

(A) *Appearance Not Required.* A person commanded to produce documents, electronically stored information, or tangible things, or to permit the inspection of premises, need not appear in person at the place of production or inspection unless also commanded to appear for a deposition, hearing, or trial.

(B) *Objections.* A person commanded to produce documents or tangible things or to permit inspection may serve on the party or attorney designated in the subpoena a written objection to inspecting, copying, testing, or sampling any or all of the materials or to inspecting the premises—or to producing electronically stored information in the form or forms requested. The objection must be served before the earlier of the time specified for compliance or 14 days after the subpoena is served. If an objection is made, the following rules apply:

- (i) At any time, on notice to the commanded person, the serving party may move the court for the district where compliance is required for an order compelling production or inspection.
- (ii) These acts may be required only as directed in the order, and the order must protect a person who is neither a party nor a party's officer from significant expense resulting from compliance.

(3) *Quashing or Modifying a Subpoena.*

(A) *When Required.* On timely motion, the court for the district where compliance is required must quash or modify a subpoena that:

- (i) fails to allow a reasonable time to comply;
- (ii) requires a person to comply beyond the geographical limits specified in Rule 45(c);
- (iii) requires disclosure of privileged or other protected matter, if no exception or waiver applies; or
- (iv) subjects a person to undue burden.

(B) *When Permitted.* To protect a person subject to or affected by a subpoena, the court for the district where compliance is required may, on motion, quash or modify the subpoena if it requires:

- (i) disclosing a trade secret or other confidential research, development, or commercial information; or

(ii) disclosing an unretained expert's opinion or information that does not describe specific occurrences in dispute and results from the expert's study that was not requested by a party.

(C) *Specifying Conditions as an Alternative.* In the circumstances described in Rule 45(d)(3)(B), the court may, instead of quashing or modifying a subpoena, order appearance or production under specified conditions if the serving party:

- (i) shows a substantial need for the testimony or material that cannot be otherwise met without undue hardship; and
- (ii) ensures that the subpoenaed person will be reasonably compensated.

(e) Duties in Responding to a Subpoena.

(1) *Producing Documents or Electronically Stored Information.* These procedures apply to producing documents or electronically stored information:

(A) *Documents.* A person responding to a subpoena to produce documents must produce them as they are kept in the ordinary course of business or must organize and label them to correspond to the categories in the demand.

(B) *Form for Producing Electronically Stored Information Not Specified.* If a subpoena does not specify a form for producing electronically stored information, the person responding must produce it in a form or forms in which it is ordinarily maintained or in a reasonably usable form or forms.

(C) *Electronically Stored Information Produced in Only One Form.* The person responding need not produce the same electronically stored information in more than one form.

(D) *Inaccessible Electronically Stored Information.* The person responding need not provide discovery of electronically stored information from sources that the person identifies as not reasonably accessible because of undue burden or cost. On motion to compel discovery or for a protective order, the person responding must show that the information is not reasonably accessible because of undue burden or cost. If that showing is made, the court may nonetheless order discovery from such sources if the requesting party shows good cause, considering the limitations of Rule 26(b)(2)(C). The court may specify conditions for the discovery.

(2) *Claiming Privilege or Protection.*

(A) *Information Withheld.* A person withholding subpoenaed information under a claim that it is privileged or subject to protection as trial-preparation material must:

- (i) expressly make the claim; and
- (ii) describe the nature of the withheld documents, communications, or tangible things in a manner that, without revealing information itself privileged or protected, will enable the parties to assess the claim.

(B) *Information Produced.* If information produced in response to a subpoena is subject to a claim of privilege or of protection as trial-preparation material, the person making the claim may notify any party that received the information of the claim and the basis for it. After being notified, a party must promptly return, sequester, or destroy the specified information and any copies it has; must not use or disclose the information until the claim is resolved; must take reasonable steps to retrieve the information if the party disclosed it before being notified; and may promptly present the information under seal to the court for the district where compliance is required for a determination of the claim. The person who produced the information must preserve the information until the claim is resolved.

(g) *Contempt.*

The court for the district where compliance is required—and also, after a motion is transferred, the issuing court—may hold in contempt a person who, having been served, fails without adequate excuse to obey the subpoena or an order related to it.

PRODUCTION OF ESI

1. Format: ESI should be produced in load-ready standard format, including single-page, TIFF Group IV, 300 DPI TIFF images with the exception of spreadsheet and presentation type files, audio and video files, and Documents with tracked changes reflected in the metadata,

which should be produced in native format. If an original Document contains color, the Document should be produced as single-page, 300 DPI JPG images with JPG compression and a high-quality setting so as to not degrade the original image. Parties are under no obligation to enhance an image beyond how it was kept in the usual course of business. TIFFs/JPGs should show any and all text and images that would be visible to the reader using the native software that created the Document. For example, TIFFs/JPGs of sent email messages should include the BCC line.

2. Format – Native Files: Spreadsheets (*e.g.*, Excel, Lotus, Google Sheets, CSV) and Media files (*e.g.*, .WAV, .MP3, .MP4, .MOV, .WMV, .MPEG), shall be produced in Native Format, except where such files are redacted. For Google Documents, production of an export in a comparable format will constitute native production (*e.g.*, Google Sheets Document exported in Microsoft Excel format). A TIFF placeholder endorsed with the corresponding Bates number and confidentiality designation (if any) shall be produced for all ESI produced in Native Format.

3. Word Documents and PowerPoint Documents shall be produced in both native and TIFF format, with track changes and speaker notes imaged.

4. De-Duplication: Each party shall remove exact duplicate Documents based on MD5 or SHA-1 hash values, at the family level. Attachments should not be eliminated as duplicates for purposes of production, unless the parent email and all attachments are also duplicates. An email that includes content in the BCC or other blind copy field shall not be treated as a duplicate of an email that does not include content in those fields, even if all remaining content in the email is identical. De-duplication should be done across the entire collection (global de-duplication) and the ALL CUSTODIAN field should list each custodian, separated by a semicolon, who was a source of that Document and the FILEPATH field will list each file path, separated by a semicolon, that was a source of that Document. Should the ALL CUSTODIAN or FILEPATH

metadata fields produced become outdated due to processing of additional data or production of Documents of additional custodians, an overlay file providing all the custodians and file paths for the affected Documents should be produced prior to substantial completion of the Document production.

5. Technology-Assisted Review/Analytics: Predictive coding/technology-assisted review shall not be used for the purpose of culling the Documents to be reviewed or produced without notifying the requesting party prior to use and with ample time to meet and confer in good faith regarding an agreeable protocol for the use of such technologies. Before threading is used to reduce the volume of emails to review, the producing party shall reach out to Ms. Lively's counsel to ensure the process being utilized by the vendor is industry standard. If it is agreed that threading may be used to reduce the volume of Documents to produce, the producing party shall produce the Inclusive emails, defined as those emails within an email thread containing all unique content as determined by commonly accepted analytics tools. An additional metadata field containing the *Thread ID* shall be produced so that Inclusive emails can be reviewed together. The requesting party may request the production of a lesser-included email or emails, and any such reasonable request(s) shall not be refused where the Document is available in the producing party's Document collection.

6. Metadata: Metadata produced will include the following fields of information, to the extent such information exists and can be readily provided through reasonable efforts: BegBates, EndBates, AttachRange, BegAttach, EndAttach, ParentID, ChildID(s), AllCustodian, FilePath, Subject, From, To, CC, BCC, DateSent, TimeSent, DateReceived, TimeReceived, FileType (e.g., Email, Attachment, Loose File, Hard Copy), FileName, Author, DateCreated,
